9. Learning serious intentions, as the chance in youth, makes life easier to attend.
10. Without uncertainty life made the feeling as all is without ..11
11. As a pearl is a beauty yet its symbol is higher.
12. As a diamond is yet for the wealthy, yet its information is above as technology counted.
13. The solar orb, as orange, granted the light to the children of earth.
14. The moon as the silver disk, at night we seek its wisdom.
15. As the planets rounded a travelling distance its light was catched at its phase of measure.
16. I choose to be obedient, as a child said, but yet all religious steps were kept for each moment confirmed
17. As reality held its silver or golden light, we choose to attend as all willpower is intervened with wisdom.
18. As reality held the key to surrender and sacrifice as trancending the purpose of a life.

19. As wisdom kept its words at uncommon level. The light of its sciences was leading the soicetal quest.
20. As my light of the soul was granting its awareness to all moments and moments in time. Its radiance was as alll societal marks were sublimized as the artist drew its line.
21. I choose to attend reality at a good moment and time, to learn this path of forbearance and surrender.
22. Children can learn to attend powers above comprehension, as still able to adapt the inconceivable source
23.As the color white of purity, as silver of words, and gold of the source made without its appearance.
24. As the flag and symbols all represent we all investigated on the flag most usefull. Symbolic painted.
25. As we all live at earth with daily sunlight, and water as the means to exist.
26. As surrender trancends its power of good and evil, yet all purposes reached by its peaceloving exertion.
27. As animals in their hierarchy serve their instinct, we all have a choice during life, yet choosen to confirm.
28. As reality supervenes all arguments, when visible at level of all spectators or attendants.
29. i learned to surrender, because the interest was without notice, and proof was only by accepting.
30. A king can say its population is to confirm his wishes, but at life's ordeal the question if he kept his nation safe, and would not have any citizen with its unrightious cause of loosing life.
31. An emperor chooses its function and his controll should be inner as power fortifies itself.
32. An emperor chooses its function, and in his youth will take lessons without its mark to fail.
33. At an uncommon moment all people, persons, have a small test to either be accepted with their hearts wish, or to be part of an order as usefull in society.
34. At an uncommon moment, all those with responsabilty were tested in their native surrounding without its prior notice, and yet its confirmation came at a moment not prescribed.
35. Giving up self interest, or wishes, one should walk the path of reverence. As tasks sometimes needs honesty, bravery, or obedience. As tasks fullfilled by its higher interest.
36. A surrender without names, sometimes followed by a godsname, sometimes as spiritually confirmed.
37. as the service by karma, is to choose a function within society and the boundary of law.
38. Bhakti Yoga as attendance of prayer, Jnana yoga as attendance to reality, Karma Yoga attendance to good actions.

---

1. time as the circle as some religions tell of its symbolic source radiance and its vivid communication
2. Times as the circle and life as one third, we know from birth to death.
3. Time as the circle of society all roles and obligations are each generation appointed. For learning and working.
4. time as the crystal building its worth. By the daily surrender and have its burden.
5. As all good people sometimes share its small moment of saving just by a gesture of strangers.
6. As sometimes a person is saved without its preknowledge.
7. Time give one a blessed life, and another hardship, but yet karma accepting grants a experience.
8. Eeryone on earth has been born and share its human interest without hierarcy.
9. Time is as a symbol without giving its full explanation as all life and living are immersed while active.
10. Even slaves are bought free at the obedience and honest living, as some religions promise.
11. even those aside reality and society in religion accepted. Sometimes its easy attendance.
12. We all choose to unconditional surrender. As the order and society spiritual confirms.
13. All surrendered appointed a special task as in their possibilty and their blessed grace.
14. The source of tradition each generation holds its respected roles.
15. Learned the holy name of the creator, it was a symbol and sigil for its existence without knowledge.
16. If heaven would have the persons name, and the name of reality, its karma would be counted even as being a reward.
17. As in religion all sacrifice are being seen as the gods count and bless with eternal mercy.
18. As in religion some names require a heroic deed. Others the softness or compassion, or the service of some higher kind.
19. A say to all females the mother goddess is an inward mercy for their intuition and feeling layer.
20. As to say of those assertive try to build a status in society.

21. As to say to those soft, or weak. You have the blood of your parents, and share a part of their soul just feel accepted and beloved.
22. As the silver mirror shows the soul and spirit and its goodness or deficit. We choose to attend prayer
23. we count time, but yet depending on awareness of its symbol.
24. We accept life, but yet depending on grace and its providence.
25. We accept religion and its unconditional service, blessed by its eternal kind of mercy.
26. All lifes and living, we have lifetask to learn, and to oblige its meaning.
27. All periods of life we study at our life questions and the endevour of its meaning.
28. At the good part of life, we choose to attend its eternal value, to study, mercy and service.

---

1. crystals as the foundation of wisdom as the inner source of conscience and intuition
2. Without thought i act, without thinking comprehension i understand, without intention i fullfill
3. the goal of humanity at the center of reality.
4. The goal of my parents by the true celibate vow
5. The goal of education, i started living my soul and its waypointer
6. The goal of society we choose service at science, compassion and its given obligation
7. The goal of wealth, i did not became rich as i shared with all sources needed.
8. The goal of power, i was submissive to all those in hierarchy
9. The goal of wisdom, i understood all my experiences, and even surrendered to interest of reality
10. The goal of prayer, i had a true golden bond and relationship of telling my wishes and feelings,
11. The goal of service, i was being guided in reality and society.
12. The goal of my spirit, i truly surrendered at the given possiblity in life
13. The goal of life, i was being modest and took the options even to be of lower end.
14. Karma as i choose to express my wish to pay its burden, a small path to the religious goal was granted.
15. Karma all religions give and grant a life task, as i was in the personal range of the gods.
16. In heaven they watch, but we have to comply our lifetask, as they ask the Lord to grant a symbol gift
17. In heaven they live with the omnipresence and the warm light of their faith as caring the beloved
18. In heaven the saints, in service to Christ, sit in his garden rewarded for personal service.
19. In heaven, small and large tasks are a gemstone of special origin and serve our reward of life.
20. In heaven, the lord speaks, the task fullfilled i grant a reward by the riches of my Father
21. In heaven, they greet the newly attendants, and say this task is fullfilled you share with us the reward.
22. In heaven, the spokespersons say, look at earth for that saint or full service he is in love for the Lord.
23. In heaven, gardens with the variety of light of the Lord, as the reward of the bond by prayer at earth.
24. At earth we all have our lifetask, and either service, either bond with our source, we all share our task to find its fulfillment. And the equal reward of being in heaven. As a farmer, a scientist, or saint they share by their work and task as fullfilled.

---

1. I was teached by the sciences and fiction the boundaries of a posible civilisation.
2. I was teached by the sciences and psychology of the border of the mind and thinking.

20. As het high guard of all species they choose a religion to bind their interest as they call authority and the indivduals speak of their intent.
21. As on earth the war for winning our purpose either labor, wishes, or the use of ideals they spoke of its sources as yet existing seen by daylight.
22. In the eye of its wisdom the prayers were found at the stone of wisemen, as life grants uncommon chances.

---

1. As a child grows to the full level of life, a specie is granted by its form and name a level of growth.
2. As peace is a mark of all creatures its level is by cooperation, as wheather predicts time.
3. As the golden level was in the implementation of wealth for goodness.
4. as the orb of black light was to be abjected to turn goodness in its effect.
5. As the green orb choosen by nature was the eternity of life force giving food and hierachy
6. as blue turned to red, the times gave birth to its demise.
7. as black and whitr used for communication gave its understanding in the source of humanity.
8. As light was used for communication its level was above the measure of time, but yet counted.
9. As the rainbow of light gave birth to its computing, the level of space was disclosed by its information.
10. Counting eons of life, the universe by its full awareness gave birth to its marks of intelligence.
11. Debt of irrational financieals, gave its effect of demise in the gathering of civilisations.
12. We had the golden orb, and choose wisdom or religion.
13. We had the silver ring, and choose to be in devotion.
14. The mark of a mariage is a golden ring, and combined home, yet the mark of relgiion is its unconditional service.
15. The mark of philosophy is the understanding of its experience the mark of labour is its satisfaction.

16. by choice all beings during life find its value of high worth, as sciences give its meaning.
17. The choice of a religious power, name and source of light unfolded its quest. As a goal of eternity.
18. The use of religion and its science supercedes all marks of technology wherever their source resides.
19. A golden orb was given as the reward as above this society certain marks were counted.
20. As the high country was with a condition to enter, it was either, fame, labour, riches, or the other source.
21. I counted all levels of societal awareness and found the mark of the leading and high level above the knowledge of the universe.
22. As magic turns into sciences as the period of medival into its use of elements, the phases are in line with its source to be found by experience.
23. As we had the source of devotion, our own eyes gave birth to its golden glance.

---

1. As the orb of wisdom was given, it was source of all sciences and its information was at level of intelligence.
2. As the orb of diamonds was gvien, its source was prolonged awareness both happiness and suffer.
3. Above meaning and prosperity is union with the relaity or gods.
4. As rewarded for awareness the inconceivable source granted many gems of worth.
5. As rewarded for religion, their bond was given in their personal endavour.
6. As philospohy spoke of its avail, they found the gem for reality and its marks.
7. as the magic of a child turned to its avail of medieval religion, they choose their source as daylight.
8. As dragons in a region far away, caused their victory over demons at the dark, they choose their natural function, and yet the war was without its casuality of shadows.
9. In the line of a single being, all momnets bound to its place, as yet withtout thinking gave its high worth, yet its meaning was beyond comprehension.
10. As law was written adn a just rule, all beings resided in its safety region of wealth.
11. A ball of magic wa granted to a person of high level, and was cause of sciences with its beauty of uncommon insights.
12. Goodness in the just of society, at the level a concept learned by education and its full awareness of the heart.
13. Wisdom took its words by many teachers, and yet rewarded with its golden bond of sages.
14. Granted wealth its was the choice as many choose by life. As sages choose religion and its purpose with the bond of religious names.
15. Some marry and are with their name of lifepartner, others choose a religion and its name, and yet some were with the name of society. As they all were granted a name to be connected.
16. Time was in its good intent, a bond of everlasting peace, and its intents gave birth to sages, saints and angels.
17. As the bond of sage was in their understanding and their rich education, the bond of angels was in their many prayers and their mystical and personal bond. As the bond of kings was in their level of rightiousness and virtues.
18. as i threw a ball of magic to a simple one, it was used for wishes, as thrown to a sage or saint, it was given to nature.
19. as i earned a gemstone of high worth, i choose to have respect and in reverence to its source.
20. As i earned a prayer, i searched for its true level.
21. As i choose to be the best, i found its blessing, as i choose to be obedient, i found its source of blessing.

---

1. I found the use of all sciences by its intervention of humane understanding.
2. I found the use of all language by its use of communication at the level of societal implements.
3. as the order of green and red is in the eye of understanding.
4. As a symbol of a circle is the source of computing
5. As with a level of insight all sciences were born
6. in the purpose of light its was seen in all cases, either vision, meaning or transmission

7. As the light in the heart told of daylight it was given to order and just action.
8. As the vision of wisdom was at the eye of a sage, it was given words to the understanding of its level.
9. As i choose a source and was given to its full beauty at sciences, devotion and the daily giving.
10. as a country was given a place, it was with its form and name given to its inhabitants.
11. As the source of intelligence is to see the soul and spirit in all living beings.
12. As the source of time ,was for all its people, to have its feeling genuine in the heart.
13. The orb of gold was thrown in the midst of a gathering and was granted either fame, power, or devotion.
14. As the orb of silver was found in the eye of its gathering it was source of its confirmation the ordeal of past.
15. As the country given its place, its inhabitants strived for peace, wealth and prosperity.
16. Medical care is a function of health, as fame is the function of being in a good look, as wisdom is the beauty of the soul and spirit.

---

1. When the source of beauty failed to show, the inner radiance trancended to its societal bond
2. When red turned to green the vast sources of lifeforce gave birth to its sustenance
3. When the orb of small atoms granted its wisdom, it was granted a sustainment of the soul
4. As the atom granted its form to a small spirit, it said a planet never being a danger to its small appearance.
5. after the magic orb was given, all wisdom fainted and the wealthy were being loosing their interest.
6. The plant of green leaves gave its birth to a substance creating life and its source of information.
7. As life gave birth to its same resemblance it was counted by the generations in the source of its image
8. as life to win the good side is to learn law and the use of responsibility.
9. As life to win its source is to be obedient to its purpose.
10. The energy created by its fusion of information was giving the building block of its sources.
11. As the small life force was source of life, it was in understanding of all life and its instruments.
12. As the soul and spirit given life, it searched for its bond of eternity, as the inner goal.
13. As the mind given its function being in effect, it transferred life its goal and source.
14. As the building block of life was in its sciences, it slowly gave birth to its science of sustenance.
15. As the atoms flying by they spoke of eons and centuries giving wealth to its species.
16. As meditation grants the vision of past or future situations, it was releasing karma. As providing means to a future goal.
17. As religion the source of all higher meaning, they found saints, angels, sages and gods in the midst of its collective purposes.
18. I was searching for an interest above my own, and yet found many words to a vision.
19. as energy created a beam translocating many planets and civilisations, it gave birth to a revelation of any of the blessed and promised sciences.
20. As the beauty of soul and spirit lives in its compassion, wisdom, philantrophy, and its unconditional awareness and its measure of law and responsibility.
21. As I created life, there was a law of life pertaining its intelligence, origins, border to its level of activity.
22. As I found a religion with the answer to our full understanding it found the border and bond to it.

---

1. when color collided to information the source of language was in the stars of its beauty
2. when the source of information found was wisdom of sciences in the midst of its discernment
3. When the species found their eternal source they became part of its universal order
4. When the orb of wisdom was found, many sciences were in the eye of its understanding.
5. Creating the world of many visions they were in the eye of its understanding.
6. In the midst of the ocean their wisdom was in the language strange.
7. in the midst of the solar orb we found the source of light as a technology granted.
8. As the high angels passed by, many prayers of beauty were given and granted as a unique wonder.

9. as the sages learned the source of its wisdom they expounded many insights.
10. as the seers saw many sources of truth they became the instruments of the high gods
11. as finding the source of humane understanding it was the orb of wisdom.
12. As finding the source of ethical reason, the political instrument was with societal design.
13. As the sciences having humans designed as technology, they spoke of many sights at life.
14. the steps of youth are the steps of a specie finding a source uncommon spoken by higher life.
15. As the steps of a child predict its worklife, its parents choose to feed with many sights of understanding.
16. As the step of a single person, saving others, they spoke of heroism.
17. As the steps of uncommon source, were in the understanding of those high understanding. As the source being teached without common methods.
18. As a pearl the spoke of religion being with a book and understanding.
19. By a ruby they told of a religion granting its high grace in the love of a high one.
20. As a diamond they spoke of the bond with reality as its granted unity.
21. As to speak of ages with reason, all themes of society including the burden of paying of debts.
22. The reward of a wealthy country is in the midst of wisdom as the political sciences.
23. As the reward of happiness is to find the goal of health, wealth as the inner measure.
24. As religion tells of their wisdom, all sages were in the understanding by contemplation.
25. Without surity I followed the wish of reasoning wisdom, as the contemplating books of sciences.
26. As the be in the heart and soul of existence, all parts collided in the right period of life.
27. Whenever the choice to be obedient, grants the level of a promised or blessed life.

---

1. As the stranger told of light to be the source of existence its symbol was creating a language
2. As the orb of its daylight given its function all diseases left the world at the level of its appearance.
3., as I choose to be in reality, all work appeared in my conscience and left after its fullfillment.
4. as I choose to be in reality, as my heart was the bond between my soul and my reality.
5. As I choose to be in reality, I found the gem of forbearance and valour.
6. In the sciences being foretold I gave the source of wisdom to a child in the use of its intuition.
7. Where I collided power with light it was the source of many methods of creation.
8. In the purpose of mankind I saw the compassion of its sources shared with all its humans.
9. In the purpose of war its territory was the source of its suffer, after it conquest won.
10. After a choice of legal matter they choose the right path of being part of higher order.
11. In the harmony of the moment all powers collided with its source of beauty.
12. As I choose reality to be guided in its presence it decent path was shown in time beyond perception.
13. In the war of species, we all choose the right path to prevent danger, karma and the ill choice.
14. As I wrote a letter about rightiousness all queens and kings had a chance winning the good side
15. As I wrote a book about wisdom, its guiding light was the source of all sources.
16. In the midst of its grand recluse I was teached about the source of its approvement.
17. The ball of small snow magic was given the source of the electric war, the function of its survival.
18. The source of the symbol, granted its survival only to those in understanding.
19. The monolith of time was conveying in the early morning and the sunset his message of wonder.
20. The monolith of time, as its source was known by its inconceivable appearance was its wonder.
21. I grantend a life of wonder to the child being obedient in his prayers, as the bond beyond.
22. As the religions spoke of their sources and their light choosen the path of highness.
23. As I choose the life of service I was rewarded with its honor of radiance in its appearance.

---

1. As Goloka, the place where the cows Go are part of their sphere as Loka as Krishna tells.
1. As Govinda is the herdence of cows, as Go means cow and vinda means to look after or upkeep.
2. As Brahman the place in the heart, as soul predicts its self dependent radiance.
3. As thinking about all things are an illusion to its existence as reality supervenes all truth.
4. As attending the soul gives its intelligence as the unfolding of its source.

5. Krishna the refuge gives its condition in the heart of life, as Govinda in the heart life into soul.
6. As the Lord tells of mercy without the condition of karma or the payment.
7. Telling about the highest prayer I choose to be in service, being available to its interest.
8. As language supersedes all communication, life supersedes all its content given.
9. To be born in a family of kings, gives the condition of its lifelong obligation.
10. To be born in a simple family, gives the condition to be either intelligence, or poverty.
11. As paying of the debt of karma, one should be aware that negative karma in the coordination of the gods, are any kind of suffer, either health, wealth, social or the use of an interest.
12. All religions are part of its authority as believing heaven to be its abode.
13. After a life of faith one receives the reward of heaven. After a life of service one is rewarded.
14. In life I was available to its interest. In life I accepted my place in order.
15. As the lord tells of his shepherds of sheep, and Krishna tells of herding his cows.
16. As Christ the lamb in heaven the shepherd of his holy servants.
17. As Govinda telling about three hundred million of cows, being the status of gods and serving.
18. I heard Christ as written in the bible, giving his prayers to Lord the Father, and his faith he accepts the prayers of this kingdom of the Lord. As by his softness even those not deserving receive mercy.
19. in christian mercy all children are subservient to their parents, as the rule for children, even though the Lord could grant them the radiance or freedom being possible. As the precious surrender.
20. obligations and wishes supersede the condition to be completely devoted, to have this precious change in life before all others start. As the precious surrender.

---

1. As the orb of wisdom, the high of high revealing itself in all religions as the title the high.
2. As the high has no enemy and has in the heart of species their message bound to their personality.
3. As the high, above the known world and universe is in the supreme level in the conscience of all living.
4. As omniscience in heaven, all being share the knowledge of their life and soul.
5. As omniscience, the angels are with their knowledge and truth by their conscience connected.
6. As omniscience, all gods in heaven share in their mark of their power, granted by the utmost high.
7. As order in heaven tells of people, with their reward after life, with the angels in their angel sphere in their continual service, and the gods bound to their known place and name in their eternal servitude.
8. As people in heaven share the place with their beloved and their personal admitment.
9. As angels in their sphere being indestructable and in the continual awareness and conscience of their Lord.
10. As gods made by their promise into their full reality, they serve eternally in the power of their appointed place.
11. I searched for all religions and they all were with their message, but yet they spoke of the place above reality. As granted by their work and labour.
12. Not any life with servitude or obligations in its obedience is without its worth as even the highest attend their obedience or obligations
13. As we choose a religion, its message reveals in our heart, and by effort we reach the grand level of life.
14. If truth is reality, and by attending the source of reality, we had our soul and spirit granted its beauty and radiance.
15. If truth and soul are the same, even the attendance of reality would have its eternal reward.
16. As the inconceivable asked by surrender, I connected with its divine, and all securities were at higher hand.
17. A pearl in its faith, a diamond in its awareness and its bond in the ruby of everlasting compassion.
18. a lotus in the bond divine, as the fleur the lis the pure heart kept, and the flower of light seen from distance.
19. the reward for surrender is inconceivable and in higher hands, but its intelligence in the measure of prayer or contemplation grants wisdom of its sources.
20. the eternal fountain of youth, is in the union of spirit and reality.
21. The alchemy was at the border of mystic medieval sources and the sciences of reason.
22. As culture in the hands of a single devoted adept, turns to a message with the connection mark.

23. as religion has the mark of its mercy or grace, some by the hands of their promised compassion, others by their promise of wealth, others my rightious ordeal, or the function of its revelation.
24. Some discern the holy name, at layers of their choice, as the names either spoken or written.
25. As some religions have the use of a certain method of their mercy, ordeal, or revelation.
26. As religion holds its promise in the extent or revelation of life.
27. As the method of their mercy, in the example of prayer, mantra, good intent, or its measure of law.
28. in the revelation shared by more and several of their attendants in the use of just speaking.
29. In the revelation in the use of the method of their mercy, in the confirmed usage being conceived.
30. In the intent of mercy, the religions convey their wisdom and reveal their message and appearances.
31. The religions hold their power to give life its meaning beyond the level of its human experience.
32. As the person added to its level of faith or devotion, the single person in its value being described.

---

1. the queen told of war and all the nations were grounded in its hatred.
2. The king was choosen by its beauty but with its inconvenient right was expelled from his family.
3. The law to choose a war was given after the kings were cursed in their inner awareness.
4. After the empire choose to rage a war, all worlds were in the bloodshed of their royals.
5. as the candle of black light given to the kings, they caused their demise as choosen their fate.
6. as in the right for a defense, they choose the weapon that caused their own demise.
7. When the war foretold by strangers were in the midst by their right of intent they choose their level of appearance.
8. All the servants of the king choose their destiny giving luck to the enemy of their largest fear.
9. Only a small will would be able to defend against the orb of evil, as the law of reality intervened.
10. In the midst of all royal families the orb of black was thrown and caused their demise as war to each other.
11. In the midst of power they diverted to evil, and struck all their worlds with evil forces yet they spoke of law to intervene.
12. The black side, opened by a king caused the feeling of dishonesty and the wars foretold started in their right to intervene.
13. As the union with realty all orders were asked to give back power to the right of the gods.
14. In the midst of their caves and prisons the right to gain power was given at the moment appointed from above.
15. As the king told of his wish to subdue, they gave him access to the black powers, yet his source was expelled from his source. As obedience to religion would hold highest rights.
16. As a child driven by the enemy to evil will, all the gods showered their mercy having the war as its sign on the world. As the war and its sign struck for decades giving poverty, suffer, and lack of happiness.
17. Yet the gods choose their enemy and struck on a world in large wealth as

---

1. Yet silver was the promised bond with religion, and gold was given its holy source.
2. As diamond was built in the union with reality, and ruby the granted grace of a godhead.
3. As choosen for a religious period, I gave its intent to the inner purpose.
4. Without any law I was choosing the inner good.
5. without interference I choose the rightious path.
6. Even my feeling of rightiousness and its source was educated during life, as all wisdom by its source.
7. Even my intuition was right when I choose to follow its good intent.
8. As a early child I choose to be spontanious and its power revealed its wonder.
9. As my will turned to evil, I learned from the people of wisdom the source of its wealth.
10. As I choose to invest all good intents, even to be protected at hard times.
11. As the old wise men educated me, the path of its sacredness yet invisible was its radiant source.
12. After life, the Lord asked me, what wonder and what choice during was yours. And I spoke about the choice of being very highly blessed and the wonder of its experience being with happiness with my life.

13. After life the heavenly blue, I was filled with conscience of my life, and omnipresence of the lord, and his omnisicent radiance about my life and society. Yet the border of its wisdom was earth and its heavensphere.
14. Omniscient, I choose during life to surrender, as to be in the path and stairway to its radiance.
15. A lionheart is the union of heart and soul at all wheatherconditions. As union with reality by perceivement.
16. A lion is to win all wars not by power but the unconditional awareness. As even the battle loosing but yet by awareness grants the fullfillment of reality.
17. Perceiving life, at all stages from early youth, it fullfilled the invisible condition giving its reward.
18. A cheetah strives for its goal at fast and single point, as a lion by its full condition fullfilled each moment its goal and purpose.
19. A cheetah wins the goal by hunting at fast intent, as the heart type is never at evil. As a deer would reach it goal at fast by escaping at the level of intent.
20. As a herbivour is the personality type of working together, or winning goals by attention, the carnivour personality is winning even by its terroritorial intent, and fighting to win all goals.
21. As I choose to have reality as my center, i had the uncommon path granting gemstones in the beauty of its radiance. As sunlight reveals all other beauty.
22. the lion type would have the awareness continually centered at reality. As the cheetah appears to win each goal at its fastest possible action.
23. the teachment of the Lord, all heart and personality types in its faith are harmless and a blessing to society.
24. As all gemstones of nature are not with evil, but its natural mercy or protection. As its radiance fullfills.
25. as paradise, the place beyond the known. Para as transcending and dias being the sphere or place.

---

1. As the soul and spirit is filled with happiness it restores all energy and creates its compassion.
2. As the mind not used, it turned into its radiance as the circle around its reality place.
3. As the body with its health is half of its happiness.
4. wisdom is the art of making words into a goal of eternity.
5. All sciences depend on intelligence yet its source is beyond its known name.
6. Beyond life is the meaning of life in the extent of what a person understands.
7. As dreaming some bought free by life, others reached their purpose and others fullfilled.
8. In the wheather condition of life, I learned to do good at all intents.
9. in the storm during a period of suffer I stand through in my heart the centre of perceivement.
10. even to tell yourself karma when countering evil or suffer. One might buy free a certain chance of wonder.
11. by meditation one relieves of karma, yet these visions are with suffer in its understanding.
12. Karma gives its precious chances, and the interest of the heart is seen in the light of its source.
13. Always a small chance in life grants the life of whealth. Be it wisdom, be it a hearts wish.
14. As three wishes given, be precious as the eternal goal would be with its legitimate reason.
15. obedient to life I was given the chances to transcend my soul.
16. as the soul gets stronger by the heroic deed to be perceiving at all moments.
17. Beyond the bond of friendship was the bond of its union with life.
18. searching the purpose when opened and legal gave its fullfillment by it s sincere endevour.
19. All symbols of the Lord are with its mark of fullfillment, as even light or its star is its realisation.
20. as the precious chance whenever given immediately to attend as the possible highest reward given.
21. As the religion and its awareness is always without depending on any visible to attend its moment.

---

1. as the golden standard the source of rightiousness and law. As its given measure.
2. As the orb of silver granted access to the religion of the regions.
3. As the solar orb gave wisdom to its life force being enthousiastic and with happiness.
4. as the thunder healed by lightning the photonic sphere and by sound the region of species.

5. as I choose to be available and spoke its intent, the subtle order gave access to an ideal or religion.
6. as many choose a life with work and a relationship, some choose to be full with a higher goal.
7. as I was educated in my feeling of rules its understanding was at the level of educated soul.
8. I measured my feeling of information and could trust her at the level of my education.
9. The orb we live on is our daily experience the ground of all our actions.
10. the mother goddess for some the planet, the other the universe at the level of their intelligence.
11. The godheads of religion at all times spoke of their name and their appearance of writing, speech or rituals.
12. when the sun was given her place, and the moon rounding our planet, the gods with measure choose to give mankind its place. As the gods were with reason, and their high intelligence.
13. as all beings search for union the gods accept on their condition giving them radiance.
14. union with reality is in the understanding. And its craftsmanship of choice.
15. with the personal blessing of a relationship one has the obligation till offspring is given to society at the age of reason. As the blessing in the eye of its obligation in the fourty of years with labour.
16. those with deficit attending the obligation given by society in their reward after life granted its place.
17. those understanding and in the full bond with religion granted their reward on blessing of the gods.
18. The level of living on earth without its fixed methods, one granted a full life, the other a short life, yet some with happiness, others with suffer or labour, as the full spectrum of life given its place.
19. The chance of life is the use of searching its interest, as the personal quest.
20. Those male persons without the level of relationship, bound to the mother goddess, and yet with choice their bond changes to the female intermediar of the mother goddess.
21. The mother goddess serves all feeling layers without her form being known.
22. The mother goddess with all females serve their relationship with the bond of feeling information.
23. The mother goddess as yet her information is in the knowledge being possible about soul and spirit.
24. those celibates serve their godheads unconditionally as their personal sphere is not by friendship.
25. Those celibates serve their godheads in the full understanding in their full devotion.
26. the sincere choice of giving up wishes or relationship grants the bond with godheads of religion.

---

1. as the time revolves as a circle, all beings fullfill their lives, as from birth to its end.
2. As life is short, the chance to do worthwile is in the centre of reality.
3. as touching reality with perceivement its interest is by its understanding as time continues.
4. the paying off karma gives the chances of wonder in the midst of its choices.
5. when the law of karma touches reality its visible in all societal places.
6. the ring of gold is shared with those beloved as the societal interest provides.
7. as the bond of gold always with a name from religion and its ground of experience.
8. As one touches to a friendship. The other path is closing its door.
9. as one touches friendship the religion holds its rule of marriage.
10. As one touches the celibate its reason is by religion or ideals.
11. As to touch poverty is to sacrifice all riches.
12. as to touch obedience the uncommon chance touches life.
13. As more than a diamond is the inner truth.
14. as more than a gemstone is to be aware of its reality.
15 to trust the ordeal of life, is to work life for its interest.
16. as the view on life is in touching reality as every person learns by conscience.
17. the lifeforce experienced many civilisations grow and prosper but yet serves the soul.
18. The life force would easily grant all wealth but yet attends the rule of its serving by strict measure

---

1. in the house of my father I learned the interest of life beyond.
2. in the house of my mother I learned the interest of compassion.
3. in the house of reality I gave all karma its moment and chance.

4. Teached by the elderly I choose to be of service to my origin.
5. teached intercession of service by prayer a small personal task for its daily duty.
6. transcending will I choose to be in higher hands. As religion teaches.
7. above the highest is given for its purpose.
8. they teach about obedience the bond of the powers beyond.
9. at the visible obedience, the intellegible was colliding without its cognition.
10. even perceivement without its immediate knowledge in the future might still give its knowledge.
11. as energy is in reality its measure of both light and form.
12. As energy is in reality both order, design and its use of fate.
13. as energy in reality is bot in knowledge of conscience, and consciousness, and its visible appearance.
14. as the vase of whit its purity and goodness and its golden border the complete plight and duty.
15. the dark blue as the chance of royals or religion, and the color of dark green its chance of high appearance.
16. the color of whith its purity, the color of yellow its virtues, the color of light blue its heavenly grace, and the color of light green the force of nature. As the color of orange is the color of the sun and solar orb.
17. as all beings naturally choose a color of their choice and interest.
18. as all beings choose a level of their living and interest by its avaiablity in their society.
19. as the soul chooses the purpose of the soul, as life chooses the purpose of life, and the society chooses its level of wealth.
20. All sciences are built on the shoulders of those before and the generations before, as nothing new already has been in the past. As sciences tell of their insights and uses in society.
21. As the border of earth is in the knowledge of their natural boundary.
22. as the border of higher order is its revelation of either sciences or religions.
23. the contemplative personality is the use of meditation at the purpose of its visible action.
24. the purpose of prayer as the use of life, is in its full possible bond as not have been withoit life worth.
25. one of the life goals is the realisation of religion in its intent of one of its features.
26. on the of the life goals is the use of personal growth at the level of religion.
27. the use of life force as the means and intent to its life and existence is inconceivable.
28. the use of life force as the source of living discloses a trancending interest in its life and societal kind.
29. the use of life force without its inner measure is the act of surrender as giving the special and beyond.
30. As life force has been for eons the basis of living as their spirits and souls are the steermans.
31. as the life force guides its vessel and in the operation of the soul, as visible and in service to its Creator.
32. Life force is both the source of life, the sustianment of the body, and the border to all choices.
33. Life force is regenerated by food, drink, sleep, and its natural boundary available.
34. As life force within the scope of its natural part of society, gives its intelligence in the selfevidence.
35. All questions in life leads to its fullfillment as the visible part of the path throughout life.
36. some questions in our consicence, others in the visible reality, and yet others revealed later.
37. The path of life is guided by all its questions, as for all living beings in the midst of their hearts.

---

1. access to the universal order by having a world government.
2. access the conditions visioned, Everywhere access to basic banking and financial services
3. access the conditions visioned, A full language spoken at the full world. By all worldly inhabitants.
4. access to the conditions visioned, a set of laws, a law systems at the full planet.
5. all local languages subservient to the basic global language spoken and written.
6. to have access one world government as a unity.
7. with the humane conditions, a reasonable and humane treatment of law. As worldpeace, harmony, and the use of all concepts in the interest of intelligence.
8. As some speak of anger, violence to be cast out of our hearts.
9. as some speak of technological advancements prior to contacts.
10. as some speak of a decent level of inner transcending as the condition.
11. as world poverty, world health services, world protection and world labour services.
12. as some speak about the art to discern what s not yet in sciences as a verbal requirement.

13. to discern the human interest children under parental coordination, as species have their civilisation, as guided by the use of sciences, culture, and the religious interest. As the keeper of species foretells.
14. as the keeper of time, the keeper of religions and the keeper of species hold their radiance
15. searching for our origin is to find a source highly intelligent, and with compassion.
16. above a level there is no territorial issue, no argument and no fighting. As collaboration is its intent.
17. as very rich people do not have to fight for their labour, and high species have their wealth.

---

1. above the battle of species, is the collaboration of species.
2. above the country with its territorial means, is the union and unifying force of mankind.
3. above evil is goodness as its reward is just.
4. above evil is law and its understanding of generic function.
5. above the level of humane wishes is the level of obedience and duties. As plight understood.
6. above religion is the source of religion as the instruments serve unconditionally.
7. above our country is the use of worlds, above worlds is mankind or humanity.
8. above our survival is the survival of our specie.
9. above survival is existence of the universe.
10. The reward of life is in the full understanding in the level of our work or our daily duties.
11. the reward of life is in the full understanding as others say to be beloved or at life's worth.
12. as a life force of nature has been eons, with all species, intelligent or simple. As life force serves.
13. as to seek the purpose of life is to open the wisdom of the societal parts.
14. as all messages of human kind, be it wisdom, be it story, be it cultural holds its part of good advice.
15. as the source of mankind is in the daily guidance of heart and soul.
16. as the source of mankind is in the full service to religion as the conscience part of society.
17. as the source of mankind to seek its origin, as the quest for life.
18. as the source of mankind, our origin at the level of instruments as sages, saints, religious service.
19. as religion holds its power to connect earth to heaven in its full visible kind.
20. as religion holds its power to connect life to all living species. By the use of its personal attendance.
21. as religion holds its power to connect person to society, and society to civilisation.
22. as religion s the connection of the soul and spirit, as the growth of experience of the eternal kind.
23. to find the soul is to seek its appearance in personal and societal visibility.
24. as all worlds both real and virtual, religion at every kind of technology or its advancements is still supervening all others even in comparison with the height of sciences.
25. religion the use of its daily living grants the gods to connect at their choosen moments as to be available to its intervention.
26. as the Creator is both the world and the universe. As all connect to their ground of experience.
27. as the Allmighty at the visible concept being the purpose of prayer, as well the purpose of service.
28. As all religion are with their message being grounded in the society and civilisation with the service to their inconceivable powers.

---

1. the reward of life as described at the function of its societal current.
2. the reward of life as described at religion or tradition.
3. the reward of life as all choose their life function within its scope of questioning life.
4. as black is the colour of unknown and inconceivable part of existence.
5. as white is the colour of purity and the use of its harmless and compassion.
6. as gold is the colour of union at the full level.
7. as silver is the colour of union by word, symbol, or written kind.
8. as stars are the colour of the universe as seen with eye and tools.
9. as water is the substance as the basis of life.
10. as air is the substance of sharing life with all its beings in the region of its visible kind.
11. as on e dimension shows a planet, and two dimensions show its context of living.

12. as travelling is the use of location and its transfer of objects.
13. as the use of order is to combine all interests in the sense of its intention.
14. as the use of order is to combine all interests in the gathering or society.
15. as the use of order is to provide its level of service to each and all inhabitants.
16. as language common to its history is to provide the means of communication.
17. as language common to its both receiver and sender in the language understood.
18. as language common to its order is the complicated use of both intelligence and its known kind.
19. as language common to its receiver is both its intent, its message and its function of reality inducing.
20. as language common to its kind is to both its level of visible being and the marks of its behaviour.
21. as language common to its verbal kind as its visible appearance understood for its messages.

---

1. the secret beam of rainbow light. Healing all wounds and damage of both body and soul.
2. the secret food of bodies containing light and its source of water.
3. the religion of high influence to both devotion and searching openness.
4. the law of high order always expressed in its verbal kind as a representation.
5. as law intervenes some people ask by prayer may law ordeal or give its judgement.
6. as all beings alive share the possibility to search for its meaning and a quest for it goal.
7. as language holds all possible speech and writing its part of culture and societal experience.
8. granted the blessing of an angel I searched for the transcending goal of soul and life.
9. granted the blessing I choose duty and plight and obligation rather than wishes or self interest.
10. if life does not grant its wishes or interest than choose an obligation or plight.
11.everywhere we look on earth we see blue sky and the orange solar orb, yet with many languages spoken.
12. everywhere we believe the happiness of heaven is the reward for our life task. Yet many religions.
13. as the orb of light granted the feeling to be connected and trusted my full life.
14. the orb of light when found granted the level of life's worth above normal.
15. as the Creator granted four paths, one monotheism, One polytheism, one herbal and nature and the fourth the proverbs of all traditions.
16. to choose full devotion as the only goal in life, will show its blessings.
17. on earth the obligation towards society is the centre of having a life. As all children are teached.

---

1. light and its use for sciences as the source of its particles and beams seen with eye or technology.
2. light and its uses for sciences to be harmless and without danger as it interferes with ethics.
3. light and its uses for sciences as its particles give energy without depletion as being seen and counted.
4. light and its uses for all levels of sciences from medieval to its advanced kinds.
5. the orb of light with its soul inside its source gives its life to a specie yet unknown.
6. the orb of light with its force being connected to the source of its origin.
7. the orb of light as its beams are in colliding fields of reality.
8. the orb of light heals when located near its boundary of reality.
9. the orb of light given its connection gives its wealth of sciences in the midst of its civilisation.
10. wisdom is the science being connected to its good use in all other sciences.
11. the science for prosperity and the science for self actualisation, and the use of science for its humane origin.
12. connected to the fabric of reality it was ground to all beings and civilisations called the matter.
13. connected to the fabric of reality ground of all religions.
14. the use of light in its advanced phase is to count by photons, and to calculate by its radiant sources.
15. the use of light in its medieval kind is to replace solar light in the evening without its visibility.
16. the orb of light gave its code language when granted to a civilisation.
17.the orb of language gave all languages its meaning when found in the orb of light.
18. the orb of all sciences gave its birth to technology without costprice when found in the orb of light.

19. the orb of blessing was seen when religion gave its origin and the bond of its message.
20. the triangle as symbol for basic services as the ground for a society.
21. the pentagram as symbol for selfdependent activity with its reward of work.
22. the davidstar as symbol for its communion as we all share our life with society.
23. as the star of eight the symbol of sharing at a religious endevour.
24. the triangle as the implementation in a society of the basic services, healthcare, allowance, coordination.
25. the pentagram as selfdependent in society at the level of managing or roles of worth.
26. the pentagram as the use of having freedom in a country able to have them excel in their uses.
26. the davidstar as the communion in sense of sharing or worth with society.

---

1. Alchemy the border of both sciences as its godly revelation or inspiration.
2. Alchemy the border of new sciences with their methods of proof.
3. Alchemy the border of both chemistry and the use of fairy tales or stories.
4. Alchemy the mind inspiration to new sciences.
5. The christian doctrin as the source of Alchemy before its perceivement.
6. the border of natural and its scientific part of theories.
7. the medieval life and emerging sciences with Alchemy as its proof.
8. the fountain of youth as its purpose of feeling young in the soul and spirit.
9. the stone of creating gold the method of happiness in its full life spectrum.
10. the use of its full force as sciences revealed by inspiration as alchemy the entrance to its vault.
11. when alchemy was the subject of its research it gave the footsteps to its advanced sciences.
12. as being part of a civilisation all growth according to steps on the path of experience.
13. the keywords of religion as waypointers to the sciences as opened by inspiration.
14. sometimes sciences are without any dependance, other times its inspired by prayer or religion.
15. sometimes sciences are with theory and proof and other times the attention and awareness given.
16. sometimes wisdom restrains sciences and the ethics leading to its good and just uses.
17. sometimes inventions are with multiple sources, other times waiting for its emergence.
18. as we look into the sun, its solar radiance is technology by the gods creating us in their image.
19. as we look at earth she is our ground into our existence as gravity grants us its stable use.

---

1. most small part of matter in the universe reveals by its combination and configuration.
2. the highest kind of energy is only perceived in its natural boundary and existence.
3. as the humane part of humans is not their body but the operator as the soul and spirit is granted the body as its instrument.
4. as the humane part of humans and the soul and spirit travels from life to life and its blessings.
5. as the soul and spirit is the particle of religion and its part of its godly kind, as the soul is not depending on sciences as its belief is part of godly formation.
6. The soul and spirit as the speck of godly consciousness is with its natural drive to seek peace and harmony. As all wishes are its quest to fullfillment.
7.when the soul and spirit is unified with reality its quest is the path in the heart unfolding by conscience.
8. the configuration of worlds in the use of species and their natural character, as the Creator holds his right of consciousness in all living parts of his creation.
9. as humans appointed to earth are obliged to its education its work, and its life for fullfilling its quest.
10. as light formed by its energy is visible by its touchment to matter.
11. as hearing is by its function as without cognition its radiance is not perceived.
12. as energy is healing all levels of humane appearance as its discovery depending on its Creator.
13. as I saw specks of life smaller than an atom as in their revelation by conscience.

---

1. a speck of light is origin of the high technology.
2. a rainbow in the ray of light the source of bending the use of visible appearance.
3. a rainbow in the ray of light as the visible mirror of silver bends to the invisible kind.
4. the rainbow as the medieval kind was to make a wish giving the wealth of its fullfillment.
5. as a ray of light bended it gave the source of all dimensional borders.
6. as a speck of light in its small appearance unnoticed when flying through the solar orb.
7. bending light to the border of an object makes the object invisible.
8. bending gravity with the source as the solar orb light as its body, and awareness in its visible unconditional.
9. the earthly orb as gravity its visible appearance and awareness in its momentary vision.
10. as all planets their awareness in its vast region, as their visible and gravity appearance by time, and its awareness by its momentary vision.
11. As all marks of a character in their worth, being Jupiter wise gassious, mars its defending territory, earth its collaboration of mankind, and Saturn its egoistic self interest. As the solar orb grants its wealth by energy. As the momentary radiance of all planets touch the border of gravity on earth, granting each human its personality. As both form, place, source and its mark of interest.
12. as the border to all life as in our conscience is by their level of time, for each moment, for their lifespan and the conscience of their actions and beliefs.
13. Above our awareness and the knowledge of time there is no other concept than our life itself.
14. the example of Jupiter in Hindu belief the priest of planets, would we artificially use the material of planets if their function would be either sacred or in any conceptual argument being used as non damaged.
15. the dimension of earth as one of the visible kind, would other dimensions be less in distance than the measure of space. As the distance of a mile yet the dimension with a border and boundary.
16. flying angels giving knowledge of our humane existence and mankind, as a hundred dimensions near like a garden of earthly existence. Would flying dimensions just be operating doors in a building of reality and its fabric. The quest for its use in religion as its authority not depending on lack of insight, or deficit in our means.
17. in the realm of sleep I found many books of wisdom, as bibles with more words than on earth.
18. the realm of sleep shared all dimensions as the memory given to a person at an uncommon moment.
19. as the realm of sleep some believe the symbolic language of insights blessing important moments in life.
20. as the realm of sleep, I found a memory of religious mercy as yet granting by its knowledge given personally.
21. as in the realm of sleep, I found the interest of religion and even a life full of its wealth.
22. as I found in the realm of sleep a bible of Rembrandt given fourfold of words, as they say, Christ blessed that world for giving him a full life span of works sustaining him a hundred years.
23. a thirty of earthly worlds given all specific history or counted deeds, each having their marks of religion, as example Christ visited all, and each had their own writing about his mercy. Some with many words, other with many examples, and several with wisdom counted wealthy.
24. in the realm of sleep I touched by reality conceivement, sometimes precious gemstones, or concepts used in my personal awareness. As the goddess of sleep provided an additional view on life.
25. on earth the personal blessing counts as they are the name of their advancement. As in the universe the design of especial kinds are in the blessed order of its hierarchy.
26. as an empire in the universe they spoke about their line of emperorship was for a two thousand years and they gave its ground the blessing of a prophet in their line of generations.
27. above wealth is the intent of religion, above happiness is the reward of inner bond inconceivable. But yet the bond is prooven by its personal and societal happiness.
28. above the leading of a country is the personal role of wealth. As one of the sciences foretells.
29. above wealth is to be with happiness, harmony, good health. Above virtue is the inner bond.
30. by wisdom one attains a good life. By religion, one attains the service, by reality all receive a chance of life.
31. by the constitution all people are endowed with the personal chance to give life its specific meaning.
32. by the constitution the law of life to give during its period the ongoing chance to give its purpose a visible piece of art.

33. as humans of all ages, all educations, all cultures and form collides in society, the universe is with many and uncounted levels of wealth, science and advancements. As all with their mark of existing. As peacefull supporting all species, as those having their own intent, and those emerging with a level of sciences not appearing beyond their own civilisation. As all kinds all forms, and yet without boundary.
34. a saw a thousand species of all kinds, all with their personal view, their mark of language and all with their endowed goal inner. As all endorsed their goal in the midst of their kind.
35. as I dreameth of species, only those familiar were shown in the picture of their name. As I dreameth of species only those near our own vision were visible in their kind of drawing a image with words.
36. the border of my dream was yet only in my own understanding, as a lack of a word, would make its mark of life in the universe invisible, as one needs to describe by its level of understanding.
37. the drawn image of all traditions, history and religion and its ancience gave the understanding of our origin beyond the level of words, beyond the image of known societies, beyond our known place in the universe.
38. as an angel of power by coincidence opend a door to far away travelled in seconds, one to bless with uncommon source of science and material, and by coincidence gave a nation hardship of any kind be it wheather, be it a force giving weakness.
39. as an angel of invisible and higher kind, opened a door to find gemstones at a place uncommon not seen before as in the distance of a society, as opened a door yet to a war not foreseen in the knowledge of its nations name. And yet the angel was inconceivable.
40. as I was in the universe I found the gemstone of wisdom pointing to all religions, sciences and awareness with its conscience.
41. a person can be itself its greatest friend, but yet can also be its greatest opposing force. And yet it supervenes by virtues and the origin of mankind.
42. as silver was the light invisible and giving a ray of energy its boundary and the force of moving particles, as yet gold was the bond of technology giving its intellectual sources a measure of computing at the high level possible as all computing elements adding to its intelligent appearance.
